

5 Courses

Aspectos básicos de la asistencia técnica

Los bits y bytes de las redes informáticas

Sistemas operativos y tú: Convertirse en un usuario avanzado

Administración de sistemas y servicios de infraestructura de TI

Seguridad informática: defensa contra las artes oscuras digitales

Nov 28, 2021

Alberto Mañas Carrete

has successfully completed the online, non-credit Professional Certificate

Soporte de Tecnologías de la Información de Google

Esta certificación de cinco cursos, desarrollada por trabajadores de Google, ha sido diseñada para prepararte para un puesto de nivel inicial en soporte de TI. ¡Piensa en un empleo online o en persona, ya sea en pequeñas empresas o en una compañía global como Google!

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.

6 Courses

Crash Course on Python

Using Python to Interact with the Operating System

Introduction to Git and GitHub

Troubleshooting and Debugging Techniques

Configuration Management and the Cloud

Automating Real-World Tasks with Python

Apr 24, 2023

Alberto Mañas Carrete

has successfully completed the online, non-credit Professional Certificate

Google IT Automation with Python

This six-course certificate, developed by Google, is designed to provide IT professionals with in-demand skills -- including Python, Git, and IT automation -- that can help them advance their careers. The hands-on curriculum is designed to teach learners how to write code in Python, with a special focus on how this applies to automating tasks in the world of IT support and systems administration. Those who received this certificate passed all graded assessments with a score of 80% of above. They should have a strong foundation in how to use Git and GitHub, troubleshoot and debug complex problems, and apply automation at scale by using configuration management and the Cloud in order to prepare them for more advanced IT Support Specialist or Junior Systems Administrator positions.

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.
